PROFILE

Founder and developer of four mobile-store products; I build full-stack web products, AI/cloud automations, and live client projects. I use AI-assisted development workflows in product design, integration, debugging, testing, and iteration. Alongside technical work, I have grown digital communities from scratch to a previous scale of 1M+ followers.

TECHNICAL SKILLS

Technology Stack: TypeScript, JavaScript, React, Next.js, Node.js, Hono, Capacitor, SQL / D1
Cloud & AI: Cloudflare Workers, Firebase, Azure OpenAI, Google Cloud, Oracle Cloud, Vercel
API & Integration: REST API, Meta Graph API, YouTube API, X API, RevenueCat, WordPress REST API
Tools & Workflow: Git, GitHub Actions, AI-assisted development, code review, refactoring, debugging, testing/validation

FEATURED PRODUCTS

Dönerci | Founder & Game Developer | [Web](#) · [App Store](#) · [Google Play](#)

- Developed and published the mobile restaurant/tycoon game on the App Store and Google Play; built shop expansion, staff, second branch, mission/reward, and offline earnings systems.
- Integrated rewarded ads, in-app purchases, and multilingual store flows, bringing the game into production.

Coğrafist | Founder & Product Developer | [Web](#) · [App Store](#) · [Google Play](#)

- Took the geography education product from concept to release on the App Store and Google Play.
- Built 30+ learning modes, interactive maps, and progression systems in React, TypeScript, and Capacitor; implemented Firebase and RevenueCat integrations.

Print Fast | Founder & Product Developer | [App Store](#) · [Google Play](#)

- Developed the thermal printing app and published it on the App Store and Google Play after testing and store release processes.
- Built Bluetooth/Wi-Fi ESC/POS and CPCL printer support, receipt/label design, barcodes, product catalog, templates, and offline usage flows.

Galaktik Uzay | Founder & Product Developer · AI & Cloud | [Live Site](#) · [GitHub](#)

- Built the web platform and content workflow from scratch; automated news discovery, content generation, image discovery, and publishing workflows.
- Built WordPress publishing, scheduled tasks, and content flows in 5 languages in addition to Turkish using Cloudflare Workers, Hono, D1, Next.js, and Azure OpenAI.

WTF Yapay Zekâ | Founder & Product Developer | [Web](#) · [Google Play](#)

- Built and launched the AI-focused web and Android product; the Android app reached 50K+ downloads. Updated the web platform in 2026 with a focus on AI news, developments, and easy-to-understand guides.

WEB & CLIENT PROJECTS

ONPO Store · Ivricambi | Full-Stack Web Development | [ONPO](#) · [Ivricambi](#)

- Developed and launched websites from scratch for two businesses, including frontend and backend; built responsive interfaces, product/catalog structures, and site-specific workflows.

AI & AUTOMATION PROJECTS

Whisper Web Scribe | Speech-to-Text / Subtitles | [Live Demo](#) · [GitHub](#)

- Developed a web-based tool for speech-to-text and subtitle workflows.

LLM Evaluation Toolkit | Model Evaluation | [Source Code](#) · [Demo](#) · [GPU Space](#)

- Built a TypeScript evaluation tool comparing OpenAI-compatible multilingual models on the same dataset for structured output quality, source alignment, language consistency, latency, token use, estimated cost, and request reliability.

DIGITAL MEDIA & GROWTH

- Tarihsel Wojak [Instagram](#) · [YouTube](#) | Built a Wojak-format historical content account from scratch and independently managed it; previously grew Instagram to 1M+ followers and YouTube to 100K+ subscribers. Ran paid social media promotions for the films Siccin and Nazar.
- WTF Çeviri [Instagram](#) · Galaktik Uzay [Instagram](#) | Built both accounts from scratch and grew both to 200K+ followers; managed content strategy, publishing operations, and growth.
- Kırmızı ya da Mavi [YouTube](#) | Grew the channel from scratch to 250K+ subscribers.

EDUCATION

Istanbul Yeni Yüzyıl University | Vocational School of Health Services | Graduation: 2026
Oral and Dental Health, Associate Degree
